STAT

Our people have gone over [] biographical information thoroughly and it really does not seem that he could be of any particular value to us. He seems to be typical of a great many White Russian emigres who, although of the best of good will, do not have much to offer us. This man has been out of Russia since 1921, having escaped at the age of 19. In the intervening years he seems to have had no intelligence or related experience.

We do appreciate having this brought to our attention.
